Michael Bratton

Computer Science

Summary

Objective:

To find an interesting and exciting career in the computer science industry with an organization that can utilize my skills, ability and knowledge.

Technical Summary:

- Programming Languages: Java, Python, C++
- Markup Languages: HTML, CSS
- Databases: MySQL, SQL
- Operating Systems: Windows, Android, Linux
- Software: Microsoft Suite

Work Experience

2014-01 - Current

Shift Manager

Marion and Muncie IHOP

- Working with and training new hires.
- Meeting and exceeding customer needs.
- Hiring new employees.
- Staying up-to-date on changing health and safety regulations.

Programming Projects

Current: Cross-developing an Android and iOS application that allows users to view, edit, and add upcoming events in Muncie indiana. We are working with a locally ran website, Muncie Events, whose api allows us to gather the needed information for the application.

Most Recent: A data gatherer that pulls information about a popular card game from a csv file, so computations on certain values can be done to find helpful statistics about the game.

Education

2016-01 - 2019-05

Ball State University

- Major: Computer Science
- Bachelor's of Science-2019
- Dean's List (7 semesters)
- GPA: 3.73
